# The Coach

FIVE-PASSENGER

\$1795

**A** CLOSED CAR on such a famous chassis never before sold at so attractive a price. It costs even less than the open model of any car to which you compare Hudson in performance, distinction or reliability.

And see how fully the Hudson Coach meets your requirements. It has beauty and utility. Only the finest materials are used.

Door windows are operated by new type crank-handle lifts. Doors swing on four hinges and are equipped with

devices to prevent rattles and squeaks. The body sills are strong and sturdy. Throughout, the Hudson Coach meets with the best practice of closed body building.

It is worthy of the Super-Six chassis. More than 110,000 owners know Hudson reliability. Every motorist recognizes its performance leadership. Equipped with the Coach it is ideal for all seasons—for town, country and touring use.

Surely it is the very car you want. It will save you perhaps \$800 to \$1500.
