DONATED BY  
PHIL ROSK'S ESTATE

January 30, 1922.

TO HUDSON & ESSEX DISTRIBUTORS AND DEALERS:

As you are familiar with the necessity of securing proper connecting rod alignment when assembling an engine, we wish to call your attention to a fixture which, in our estimation, is a necessary acquisition to every Hudson and Essex repair shop in the country.

The fixture can be used on both the Hudson and Essex connecting rod assemblies, and its use makes it possible for you to secure absolutely true alignment of bearing surfaces and piston pin. A notched angle plate is incorporated in the device and this notch represents the distance between the piston pin bosses in the respective pistons, thereby rendering it unnecessary to assemble the piston and the rod when aligning the rod. After this operation has been performed the piston can be assembled, at which time the entire assembly can then be aligned with a surface plate which is also provided.

We have had this fixture in operation in our shop for some months, and have no hesitancy whatever in recommending it. It may be used in conjunction with our standard half cylinder block fixture, thereby enabling you to secure accuracy and precision when performing these operations.

One of the many desirable features of the device is the possibility of aligning the connecting rods on the Essex model when necessary without the removal of the cylinder block. This would result in considerable saving in time in cases where it was not necessary to remove the cylinder block for other reasons.

We are prepared to accept orders at the present time at a low price of \$50.00 net F.O.B. Detroit, and we would recommend that you avail yourself of this opportunity to secure a device that will more than pay for itself in time saved.

Yours very truly,

HUDSON MOTOR CAR COMPANY

CABLE ADDRESS  
HUDSONCAR

DETROIT, MICH., U.S.A.

February 24, 1922.

TO HUDSON & ESSEX DISTRIBUTORS AND DEALERS:

Announcement was made in our Serial letter Ser: 600 - S.E. 814, under date of November 1, 1921, that we would discontinue handling Windshield and Body Glass, as soon as our supply became exhausted. With a few exceptions our stock has now been depleted.

For your convenience we have supplied the Pittsburgh Plate Glass Company and its branches with Blue Prints of our Windshield and Body Glass, so that in the event you are not able to procure your requirements locally you can send your orders direct to their branch nearest you. A list of their branches is attached.

In ordering glass through them, it is imperative that you specify our catalog part number as this is their only means of identifying the piece or pieces of glass which you might order.

Yours very truly,

HUDSON MOTOR CAR COMPANY

TO HUDSON AND ESSEX DISTRIBUTORS AND DEALERS:

Attached are letters pertaining to service matters that have been written to Hudson and Essex dealers from time to time, and which should be filed or kept in a loose-leaf book for future reference.

The numbers which are not included have been obsoleted or have later been included in the Instruction Books since issued.

That you may receive such letters in the future, we request that you send us the name of your Service Manager or head mechanic that we may put him on our Service Manager's list to receive copies of all current letters and service literature,

Yours very truly,

CABLE ADDRESS  
HUDSONCAR

DETROIT, MICH., U.S.A.

April 5 1922.

TO HUDSON DISTRIBUTORS AND DEALERS:

Attention: SERVICE MANAGER.

We are attaching a list of parts used on new type Hudson Sedans.

The manufacturer instead of following past practices of numbering the bodies in sequence, regardless of the job number, has numbered these new type bodies commencing with #1 up.

Therefore, in order to avoid mistakes when ordering parts for any Closed Bodies it will be essential that we have in addition to body number, the job number, which you will find embedded on the right hand door sill next to the scuff plate.

Please see that this information is passed to the proper person in your organization so that the necessary information will be incorporated in all of your orders for body parts.

Yours very truly,

HUDSON MOTOR CAR COMPANY.

Ser:619

Service Department.

April 5, 1922.

In replying refer to  
Department of

TO HUDSON AND ESSEX DISTRIBUTORS & DEALERS:

Our new Master Parts Catalog for the Super Six Models will be ready for distribution about April 15. In form it is a departure from the Master Catalog now in use, in that it combines the Super Six Models only, condensed in one book of 180 pages instead of having individual books for each model, enabling you, at a glance, to determine parts that are interchangeable on the various Models.

This catalog will be furnished in bound and loose-leaf forms, but supplements covering revisions and additions will be supplied in loose-leaf form only.

A new binder will be necessary for holding the loose-leaf forms for this new catalog. This binder is so designed that it will also accommodate loose-leaf price lists for both the Hudson and Essex Models, as well as the Essex Parts Catalog which is now in the process of compilation. It is of imitation leather imprinted in gold leaf, and sells for \$2.50 net, including inserts.

If the loose-leaf form with binder is desired, please send your order by return mail so that we can determine approximate number of binders required and get them under way.

Yours very truly,

HUDSON MOTOR CAR COMPANY

TO HUDSON AND ESSEX DISTRIBUTORS & DEALERS:

Some of our dealers and distributors we note are replacing complete seats in cases where trouble is experienced with folding seats in both open and closed models. This must be discontinued as it results in needless waste and expense to us.

We can furnish certain parts, upholstery, or make suggestions for repairs if any cases you have are referred to us. We are advising you that no complete seats will be credited when minor replacements or repairs could have handled the trouble.

Yours very truly,

HUDSON MOTOR CAR COMPANY

DETROIT, MICH., U.S.A.

May 29, 1922.

TO HUDSON AND ESSEX DISTRIBUTORS & DEALERS:

It is apparent from the few calls that we have had for our new Master Parts Catalog and Price List with Binder, which was announced in our serial letter 620-S.E.101, that this letter did not get into the hands of the proper party in your organization.

This new Master List has all the Super-Six Models contained in one book, and shows readily those parts that are interchangeable. This feature was not contained in any of our previous catalogs, and is a great aid in ordering parts, particularly, to new dealers and distributors.

Bear in mind that sheets covering revisions and additions will be mailed without charge for the loose-leaf forms only, therefore, in order to have before you complete and up-to-date information at all times, you should have one of these binders with the loose leaf type of catalogs in your Parts Department. The price is \$2.50 net each.

Please let us have your order by return mail to insure your requirements being taken care of out of the remaining copies.

Yours very truly,

HUDSON MOTOR CAR COMPANY

DETROIT, MICH., U.S.A.

June 23, 1922.

TO HUDSON DISTRIBUTORS AND DEALERS:

Please make the following corrections in your Master Parts Catalog for Super Six Models.

Page 13.

Strike out front fender bracket #21943 listed in columns "0 to 9-0" and "10 to 12-0" covered by illustration #31.

Add, covered by illustration #33, front fender bracket R.H. #18775 and L.H. #18776, in columns "0 to 9-0" and "10 to 12-0".

Page 85.

Under heading "Piston", add "Piston assembly (furnished in sizes from standard to .030" oversize)" part #14259 for all models.

Page 86.

Under heading "Water Pump", add "Water Pump and Shaft assembly", part #14369 for models "H", "J", "4-J" and "5-M", part #16324 for model "6-M" and part #20342 for models "0 to 9-0", "10 to 12-0", and 100000 and up series.

Page 91.

Under illustration #1059 Clutch driving disc, part #581, strike out words "(includes corks)".

Under illustration #1060, change from "Clutch driven disc", to "Clutch driven disc assembly (includes corks)", also change part # from 2509 to 20249 for all models.

Page 125.

Change part number covering Windshield complete for models "5-M", "6-M", "0 to 9-0", "10 to 12-0", and "100000 and up series", from 16063 to 16603.

Page 148.

Change page reference covering Back curtain glass listed under illustration 2000, from "Page 000" to "Page 145".

# HUDSON MOTOR CAR COMPANY

CABLE ADDRESS  
HUDSONCAR

DETROIT, MICH., U.S.A.

June 22, 1922.

TO HUDSON AND ESSEX DISTRIBUTORS AND DEALERS:

This is to advise that we are no longer able to supply radiator cores that will take the thermostat assembly used on some of the "M" and first "0" models.

Therefore, when an owner of one of these cars finds it necessary to replace the radiator core assembly, order the standard core as used today and scrap the thermostat and the housing which contains it. This will in no way affect the efficiency of the machine, in fact we advise that the cars be operated without it.

Therefore 19165 and 16393 radiator core assembly, are now obsolete, and in their place we will substitute 23909 radiator core assembly, 23238 outlet with plug and 134511 hose.

If you have any of the older model cores in stock, they can be used by removing the thermostat element and blocking the by-pass pipe and its upper and lower extremities, in order to prevent the water from circulating thru it.

We will assist any distributors or dealers in moving these previous type cores if they will advise us the number of new ones they have in stock in order that we may divert any orders received to them.

Yours very truly,

HUDSON MOTOR CAR COMPANY

# HUDSON MOTOR CAR COMPANY

CABLE ADDRESS  
HUDSONCAR

DETROIT, MICH., U.S.A. June 26, 1922.

TO HUDSON DISTRIBUTORS AND DEALERS:

Effective with serial number 104346 left hand drive and serial number 175191 right hand drive, a new 7-passenger Phaeton body went into production. The first cars employing new type bodies were shipped on March 22, 1922.

Following are the symbols and descriptions of all the parts affected by this change:

July 1, 1922.

TO HUDSON DISTRIBUTORS AND DEALERS:

Effective on and after May 10, 1922 all Hudson cars employing 34 x 4 $\frac{1}{2}$  wheels are equipped with new style wheels and rims. The wheel is altered to accommodate the new rim which has a hollow driving lug to take the valve stem.

The new rim is equipped with both old and new style driving lugs, and is therefore interchangeable with rim #23212 and will be supplied in service in place of it.

The new wheels #24412 and 24413 will not take old style rim #23212.

Following are the symbols and descriptions of the parts affected:

SYMBOL	DESCRIPTION	SUPERSEDES	LIST
HUDSON ESSEX			
24412	Front Wheel Assembly 34 x 4-1/2	23208	22.50
