TO ALL DEALERS

Date

Subject

This bulletin is a review of the procedure for supplying New Dealers with Parts Books and other service material, and the procurement of replacements and extra copies for independent garages, service stations and owner needs.

At the time a New Dealer is signed, the Zone or Distributor is required to fill out a New Dealer Material Order, Form #10880. This is made out in triplicate, the Dealer and Zone or Distributor each retaining a copy/ The original, if carbons are used, is mailed to the factory along with the letter of transmittal.

Upon recording of the New Dealer's Sales Agreement, the New Dealer Material Order form is given to the Service Department for shipment of the material to the Dealer. At the same time a letter is sent to the Zone or Distributor informing them that the order has been released for shipment.

This initial supply of material is sent to the New Dealer n a gratis basis, except for the Service Bulletin Binder for which there is a charge of \$2.50. This is charged to the account of the Zone or Distributor who should collect it from the dealer at the time the Sales Agreement is signed.

Requests by a dealer for additional copies of any of the items shown on the New Dealer Material Order should, in every case, be directed lo the Zone or Distributor.
